

RESTAURANT TRENDS APP

For any restaurant, Understanding the competitive landscape of your trade are is key when making location-based real estate and marketing decision. eSite has partnered with Restaurant Trends to develop a quick and easy to use tool, that allows restaurants to analyze how other restaurants in a study trade area of performing. The tool provides users with sales data and other performance indicators.

The tool uses Restaurant Trends data which is the only continuous store-level research effort, tracking all major QSR (Quick Service) and FSR (Full Service) restaurant chains. Restaurant Trends has intelligence on over 190,000 stores in over 500 brands in every market in the United States.

APP SPECIFICS:

- Input: Select a point on the map or input an address, define the trade area in minute or miles (cannot exceed 3 miles or 6 minutes), and the restaurant
- **Output**: List of chains within that category and trade area. List includes chain name, address, annual sales, market index, and national index. Additionally, a map is provided which displays the trade area and location of the chains within the category and trade area

PRICE:

- Option 1 Transaction: \$300/Report
- Option 2 Subscription: \$15,000/License per year with unlimited reporting

SAMPLE OUTPUT:
